

Dear Teachers and Staff,

White Barn Fun Farm is so excited to have your school out to pet and feed our friendly farm animals!

Farm Safety is a priority for us. That includes children and animals. We have provided your school with instructions for the tour. It's important that each group leader encourage students to follow the farm rules so that everyone can be safe while learning lots and having fun!

#### Farm Rules Include

- Move slowly, talk softly with all animals this keeps the animals calm and happy
- Don't climb fences
- Hold hands flat when feeding animals
- Groups remain together until time to move to another animal or activity
- Haybales are for jumping and climbing and the play here needs to be supervised

We ask that each group of students be supervised by staff or volunteers that are provided by the school. We have enclosed instructions for each group to follow for their tour. There is a total of 8 activities/animals for the tour please remain at each for 15 minutes per activity/animal. We have included a scavenger hunt list to encourage student engagement. It would be helpful if a leader set a timer on their phone to remind them to move to the next station after that 15 minutes is up.

Once each of the 8 'stations' has been visited students can grab their lunch and chose a spot on the grassy area near the hay bales. There is a handwashing station beside the store. Garbage's are located beside the store.

The store will be open after the tour and small gifts and ice cream can be purchased for under \$5.

\*Please have staff familiarized with the enclosed map, instructions and rules before they arrive.

Email, text or phone Melissa if you have any questions. 403-501-3907
